

ATARI JAY ARMCHAIR - 8040

COLLECTION
GIOBAGNARA

DESIGNER
STEPHANE PARMENTIER

DESCRIPTION

This armchair celebrates the namesake video games that appeared in the late '70s. Part of the Atari Collection, this striking piece features the harmonious combination of vertical and horizontal elements in a rigorous silhouette that is entirely upholstered in water-resistant, vegetable-dyed leather. The unique texture of the legs and armrests shows cuts that reveal the thickness of this exquisite leather, while continuing the theme of geometric juxtapositions, reminiscent of the perforated cards used in early computers.
