

BEETLE - BE05

COLLECTION
IMPERFETTLAB

DESIGNER
VERTER TURRONI & EMANUELA RAVELLI

DESCRIPTION

Fibreglass, with an incredible iridescent finish, immediately suggests that this element is inspired by the surprising nature of the beetle from which it steals its coloured glow, luminescent reflections and elegant curvature. This collection of seats fills and transforms the space it occupies into a playful vision: a world suspended between dream and matter.

MATERIALS

Fibreglass
