

BUFFALO JUMP TABLE - 9446/9447

COLLECTION POWELL & BONNELL

DESCRIPTION

Fenwick Bonnell's Buffalo Jump Table takes its name from the precipitous geological drops at "Head-Smashed-In", a world heritage site in Alberta. While the inspiration may be thousands of miles away the proximity of fabricators to the Powell & Bonnell studio, streamlines the various stages of product prototyping & development. This was true in the design of the Buffalo Jump Table. Originally conceived with a solid stainless-steel frame, a visit to the metal shop revealed the prototype table much too heavy to be moved. Working one-on-one with the fabricator fostered important changes to the design and a more versatile frame. Combining tubular and solid metal made the frame much lighter and permitted a full range of plated and powder coated finishes in addition to an integrated handle, a practical and stylish detail. These changes make the table easily movable while remaining sturdy. Available in numerous metal finishes with top selections of natural stone, solid surface, wood, lacquer and leather.

MATERIALS

Metal, Stone, Solid Surface, Wood, Lacquer, Leather

COLOURS

Please enquire about Natural Stone, Casesarstone and Solid Surface options

FINISHES

Please enquire about Standard and Premium Wood, Lacquer, Plated Steel, Powder Coat finishes

DIMENSIONS

SIZE 1

Width: 7.00" (17.78cm)

Depth: 15.00" (38.1cm)

Height: 21.50" (54.61cm)

SIZE 2

Width: 7.00" (17.78cm)

Depth: 15.00" (38.1cm)

Height: 24.50" (62.23cm)

ADDITIONAL DETAILS

COL Req'd: 10 sq ft (top)

Please enquire about available Quickship finishes
