DESCRIPTION

Decorative and functional, the embroidered screens designed by Studio MTX are a new take on the classic blinds and interior separative screens. With the Studio's renowned sense of composition and materials, these propositions are blurring the lines. They combine the fluidity of the fabric with the rigidity of the metal and blend the rippling fall of a curtain with the precision of its metallic inclusions. In front of a window or between two spaces, these four models offer a creative solution to maintain natural light while protecting intimacy.
