

DAUMILLER ARMCHAIR

COLLECTION GUBI

DESCRIPTION

Solid in construction, simple in form, and sculptural in expression, the Daumiller Armchair's straightforward materiality and robust composition pay tribute to Daumiller's lifelong affinity with nature. The generous seat and three-part arms and backrest are carefully milled to achieve the necessary curvature, and finished by hand. The combination of material, design features and joinery process ensures the armchair offers the highest possible degree of comfort and support for the sitter - in part made possible by the fact that pine is a softwood, and thus receptive to the kind of contours Daumiller's design demand. The chair available in a lacquered golden pine.

MATERIALS

Wood

FINISHES

Golden Pine, Brown Black Pine
