DESCRIPTION

Warmth, strength and subtlety define the Howard Wall Lamp - Space Copenhagen's distinctly Scandinavian celebration of New York's industrial palette. Abundant with material and atmospheric references from the SoHo location of the Howard Hotel, for which they were originally designed, they exude a warm, tactile feel. Carefully crafted, semi-spherical gunmetal brass shades lend an industrial, functional aesthetic. The brushed brass interior adds a warmth to the gentle, indirect light it casts, creating a characterful, elegant and understated effect. The Howard Wall Lamp creates its own magical atmosphere - something that is heightened when used in repetition. Used as a 'mood lamp' in the kitchen, hall or living room, it can be combined seamlessly with other elements of the highly coherent Howard Collection.
