

ISOUHA

COLLECTION
ATELIER ALAIN ELLOUZ

DESCRIPTION

Some collaborations feel destined, a natural fit. The union of Alain Ellouz, master of mineral light, and Ana Moussinet, an interior architect with an intuitive and refined aesthetic, belongs to this rare harmony. The Umami collection doesn't illuminate, it reveals. Umami is not a taste, nor a form of light. It is a sixth sense, beyond perception. Deeper, transcending the boundaries of the visible, the tangible, and the harmonious. Umami isn't conceived, it is felt. Quietly instinctive, meditative in essence, this collection asserts itself with gentle certainty.

MATERIALS

Alabaster, Painted Steel
