

LOONGA CENTER TABLE

COLLECTION COLLECTOR

DESCRIPTION

Loonga Center Table. Two halves become more than a whole. This would be a regular coffee table if it wasn't for its bold break down the middle. It allows the parts to shift, and stretch beyond its original size. A unique trick highlighted by the striking wavy division. This means the table can grow and shrink to fit the room. The Loonga table can go from 130 cm in length to 190 cm.

MATERIALS

Structure in Solid Oak Wood.
