DESCRIPTION

The Multi-Lite Table Lamp is characterised by its multiple combination possibilities where the light can be directed upwards, downwards or exude an asymmetrical art light in any room. With its timeless elegance and decorative expression, the table lamp appears almost sculptural. The Multi-Lite was first designed in 1972 by Louis Weisdorf with the aim of celebrating his passion for diversity. Two cylindrical shapes lay the foundation of the lamp and a metal ring encompasses it and anchors the two-quarter spherical shades, which ultimately completes a picture of an iconic design with multiple purposes. The decorative Multi-Lite Table Lamp is an evolution of the pendant design and ideal for creating a festive ambient light in domestic environments as well as hotel rooms and other public areas.
