

OKENITE SCONCE NO. 2

COLLECTION REFRACTORY

DESCRIPTION

The Okenite series draws from the nature of a geode whose exterior surface, upon splitting open, is quite distinct from what is discovered on the interior. The hand-polished fins of the shade flow into vertical spines and hulls. A wall mounted cast glass form, with exposed bulb or with an anchored cast bronze dome, the Okenite Sconce casts layered and nuanced light onto the wall surface. Glass is available with cast texture interior or with the interior surface etched. Available in a larger size.
