

PLATEAU NIGHTSTAND - 9766

COLLECTION POWELL & BONNELL

DESCRIPTION

As is true of many Powell & Bonnell designs, the Plateau Nightstand was first conceived as furniture for a client's home. The ability to customize this piece is inherent in its design and was developed into a suite of furnishings including a chest of drawers & sideboard with endless additional design possibilities. Whether ordered as a one drawer nightstand, with an open adjustable shelf below, or a three-drawer unit, a pull-out tablet is common to both designs. The tablet, an ideal resting spot for nighttime reading or a drink, is inset with protective glass and the interior surfaces are lacquered in any specified color. The drawer interiors are also lacquered to compliment the tablet and invite the designer to make a personalized peek-a-boo statement. The metal base with tapered legs and cross stretcher is available in any of the Powell & Bonnell metal finishes with pull handles to match... or not!... if you prefer. The body of the nightstand can also be specified in any of the vast selection of Powell & Bonnell wood and lacquer finishes. With the endless offerings of customization these nightstands are sure to be, as originally conceived, tailor-made for each client.
