ALAIN BOURDON

DESCRIPTION

With The Minimalist Wave, graphic designer Alain Bourdon opens the second chapter of the "Cahier d'artistes" collection produced by Atelier Tortil. In designing this line of hand-tufted rugs, Alain was inspired by the wave, a powerful force that he loves to capture while surfing, a passion that invites him to explore and discover unusual spaces. Reef and Swell, two designs whose dynamics and bold lines have been interpreted by Atelier Tortil in a textile expression that offers a unique vocabulary of textures and colours. The Minimalist Wave is an invitation to a sensory experience created by contemplating the magic and poetry of the ocean.
