

SATELLITE SCONCE

COLLECTION
PAUL MATTER

DESIGNER
NIKHIL PAUL

DESCRIPTION

Satellite is inspired by the conceptual and minimalist art movement of the 60's and 70's. These light sculptures are fundamentally geometric and architectonic. They rely on the cube as a starting point for studio's explorations in space, light, form, volume, repetition, sequence and variation. Articulating arms enable a 180 degree movement on the horizontal plane. The pieces can be used as individual fixtures or in number of combinations forming light sculptures levitating in space.
