

SELINA CONSOLE TABLE - CCT49

COLLECTION PORTA ROMANA

DESCRIPTION

The Selina Console table was shaped first in plaster of Paris, then cast in a more durable and light resin; a production method often used by Diego Giacometti. Viola's collection is designed around the circle and the sphere and their interaction with light. The Selina Console table expresses this through the highly textural finish of the rounded legs and the rhythm in the decorative edges of both top and feet.
