DESCRIPTION

The Strand Swivel Tilt Lounge Chair, designed by Fenwick Bonnell, offers freedom of movement and exceptional comfort. The channel tufted seat detail waterfalls to the floor and keeps things looking streamlined and sophisticated, while the show-wood back and arm caps are designed to protect the upholstery where it is likely to be touched. Inspired by fabulous cocktail lounges of the 1960's, this lounge is designed to be used in multiples for conversational groupings or perhaps casual dining around a low round pedestal table. Numerous upholstery, wood and metal finishes broaden the possibilities for the perfect look.
