

TECTONIC MIRROR - 9679

COLLECTION
POWELL & BONNELL

DESCRIPTION

The Tectonic mirror from Powell & Bonnell embodies a rustic, masculine quality. An inset of random cut mirror panels, of varying glass thickness, mimics the effect of cleft stone, adding a faceted textural effect. The lower panel of mirror is wrapped in a simple metal frame, and embellished with an exaggerated wall bracket support. Rugged yet sophisticated, this mirror is available in clear, mercury or antique glass and a variety of metal finishes.
