

TRAVERSE SIDE TABLE - 9464

COLLECTION POWELL & BONNELL

DESCRIPTION

A steel frame table with inset geometric sectioned marble top. The arbitrary pattern of the intersecting steel bands of the Traverse tabletop were inspired by city maps and parks. This random pattern continues with the divergent band widths of the table sides and base which connect to the top, creating a symmetry of union. The table base is available in all Powell & Bonnell metal finishes while the inset top can be natural stone, solid surface, Caesarstone, wood or lacquer.
